Object : Application for the Development Committee of E.T.U.

Dear Sir, dear Madame

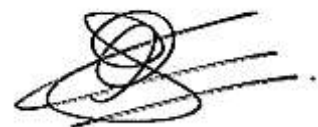

I am delighted to apply for the Triathlon Development Committee.

Invested in the triathlon for over 15 years, I have participated in the achievement of various projects whose sole objective was to introduce our disciplines. Currently general secretary of the Hauts de France Triathlon League, we carry out various actions aiming at reaching the greatest number of people: trainings, discovery courses, performance trainings...

My dedication as a P.E teacher encourages me to innovate, experiment and share the values of our federations with as many people as possible.

Recently elected to the Federal Executive Board of the FFTRI, I want to get more involved in order to democratize and continue the development of our sport.

Best regards,
