TARGET

- | | |
|---------------------|--|
| Technical Committee | <ul style="list-style-type: none"> - Creation of a website with the technical regulation translated “into practice”, thanks to the sharing of information and case histories. Thanks to the analysis of many real situations, it is possible to increase the experience of each one. - production of didactic material for TDs, TOs, LOC, using using the study and the analysis of real situations. I believe this is an important aspect to increase the number of well organized and managed. - use of software development to manage the critical phases of multisport events, for example the control of NO DRAFT, the location and management of volunteers and medical and safety personnel during an off-road event |
